

19 and 20 November 2011 NUMISMATA Frankfurt/Main

The NUMISMATA in Frankfurt takes place on 19 and 20 November, 2011 for the seventh time. This European city of banks has been entirely accepted as an exhibition location of the NUMISMATA and one more successful meeting place for numismatists has arisen. Also the international attendance augments every year. Collectors from France, Belgium, Luxembourg, the Netherlands and so on have discovered the way to this show as well. The excellent flight connections make the journey easier.

Also this year there is something special in Frankfurt: for the fifth time in Germany a big sector for paper money/banknotes, emergency funds, shares and securities will be brought together with this coin fair.

Munich, Berlin or Frankfurt, every NUMISMATA is a paradise for collectors. More than 160 reputed dealers from all over the world will offer a broad choice of coins, medals, paper money and antiquities in the exhibition pavilion featuring about 2.700 m² and surely meet all customer requirements. This is not by coincidence. The organizer Erich Modes gives access to the NUMISMATA only reliable companies. Let us quote an abstract from the General Rules and Regulations for Participants of the NUMISMATA. It says:

“The exhibitor is obliged to carry out all business transactions commercially correct and respectable, e.g. to issue invoices and receipts. It is prohibited to sell imitations or fakes, artistically modified coins, coin-samples or other similar objects, which were produced not by order of a state. Medals dated up to 1970 are allowed. Subsequent issues are permitted as well, provided they can not be mistaken for coins. ...”

Erich Modes really expelled those exhibitors, who once broke this rule. High product quality and visitor satisfaction are the basic principles of the NUMISMATA philosophy. The collectors reward it by visiting NUMISMATA regularly.

You should join and not miss this important event for numismatists on 19 and 20 November, 2011!
